Experience

Canadian Red Cross

December 2018 – April 2019

Canvasser/Leader - Toronto, ON

- Door to door fundraising for local programs run by Canadian Red Cross.
- Operated under TNI group and Harris Global Enterprises.
- Built friendly rapport with home owners at their door and closed a minimum of one monthly donor a day. Trained new representatives on how to relate with clients and began to build a team of my own.

Real Programming 4 Kids

October 2017 – June 2018

Instructor – Toronto, ON

- Taught children between grades 4 – 12 how to make their own video games from Beginner to Advanced programming levels. - <https://realprogramming.com/>
- Had to communicate difficult concepts such as OOP and game physics mechanisms in an easy way for the children to understand. Frequently exchanged feedback with parents on their children's progress.
- Adapted to teach a range of games from alternatives of Pacman and Tetris to Shooters and Game Engines.

Android Payment App (w/ SumUp)

October 2018

Freelance Android Developer - Telecommute

- Developed native Android app, using the SumUp SDK for POS transactions like receiving payments.
- Utilized OAuth2.0 flow to make server requests for an 'access token' from the SumUp API.
- Built from scratch capturing client's vision and updated regularly according to client's needs.
- <https://github.com/tasusattar/SumUpApp>

DogVacay

October 2016 – March 2017

Dog Walker/Boarder - Toronto, ON

- Provided pet care services for both cats and dogs.
- Responsibilities included walking dogs, boarding pets at own home or pet sitting at owner's home.
- Gave frequent updates to owners and built a trusting reputation with regular clients.

Education

University of Toronto, Major in Cognitive Science

Bio

As an individual, I'm a fun-loving, easy-going and considerate person. As a creative, I look to be original and make things from scratch. I enjoy focusing on precise handiwork and am always looking for the most simple and elegant solution. I need to be involved and know every detail of my work. My favorite class was always Physics Lab.

As an employee, I'm loyal, hard-working and dedicated to providing results. I maintain my professionalism and follow instructions to the dot; however, I am not afraid to ask for help. I'm confident and flexible to work as a part of any team or handle work myself. With experience directly communicating with clients, I can build trust and provide the support the clients need without giving up the integrity of my work.
