Experience

Canadian Red Cross

December 2018 – April 2019

Leader - Toronto, ON

- Door to door fundraising for local programs run by Canadian Red Cross.
- Operated under TNI group and Harris Global Enterprises.
- Built friendly rapport with home owners at their door and closed a minimum of one monthly donor a day. Trained new representatives on how to relate with clients and began to build a team of my own.

Real Programming 4 Kids

October 2017 – June 2018

Instructor – Toronto, ON

- Taught children between grades 4 – 12 how to make their own video games from Beginner to Advanced programming levels. - <https://realprogramming.com/>
- Had to communicate difficult concepts such as OOP and game physics mechanisms in an easy way for the children to understand. Frequently exchanged feedback with parents on their children's progress.
- Adapted to teach a range of games from alternatives of Pacman and Tetris to Shooters and Game Engines.

Android Payment App (w/ SumUp)

October 2018

Freelance Android Developer - Telecommute

- Developed native Android app, using the SumUp SDK for POS transactions like receiving payments.
- Utilized OAuth2.0 flow to make server requests for an 'access token' from the SumUp API.
- Built from scratch capturing client's vision and updated regularly according to client's needs.
- <https://github.com/tasusattar/SumUpApp>

DogVacay

October 2016 – March 2017

Dog Walker/Boarder - Toronto, ON

- Provided pet care services for both cats and dogs.
- Responsibilities included walking dogs, boarding pets at own home or pet sitting at owner's home.
- Gave frequent updates to owners and built a trusting reputation with regular clients.

Education

University of Toronto, Bachelor of Science

Major in Cognitive Science (2021)

Activities

U of T Podcasts

- Former President of the University of Toronto based student club.
- The club provided facilities and services to members to record, edit and publish quality podcasts.
- Spoke with local radio station, CIUT 89.5 FM, who agreed to provide us with a studio and equipment for any member to use, but which executives had to undergo training for.
- Was always present with another executive during recording, ensuring studio protocol was followed and performed audio engineering duties both in production and in post-production for members.
